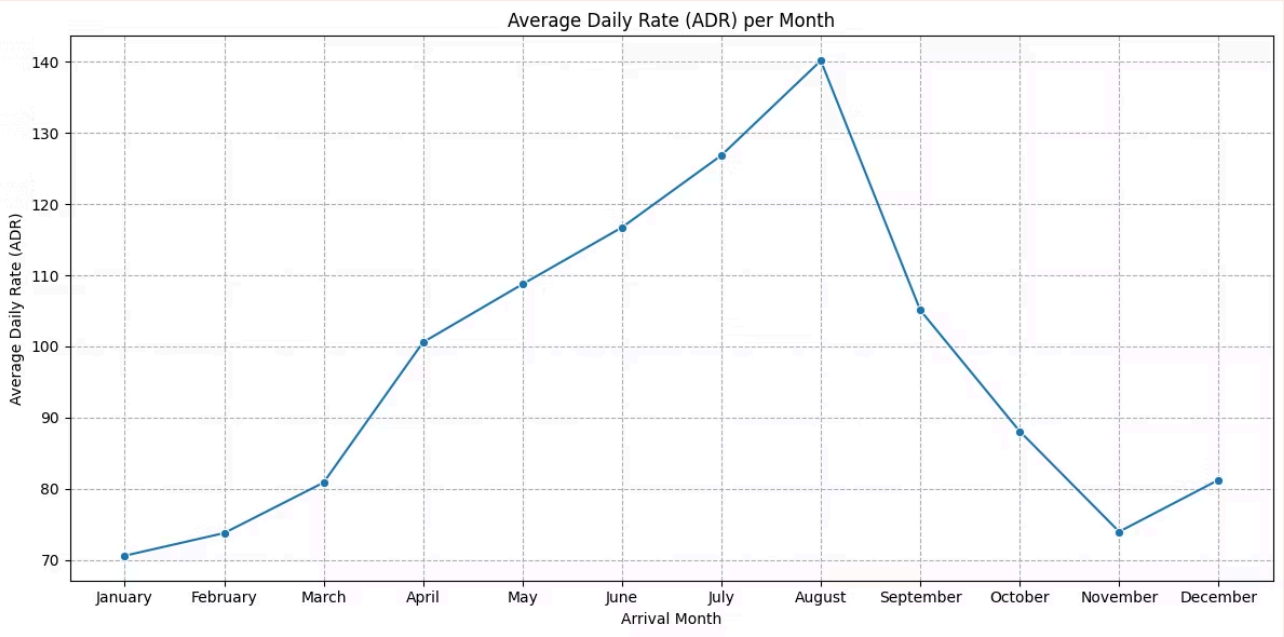
# Understanding Cancellation Trends

KEY INSIGHT



## High Cancellation Volume

Approximately 37% of all bookings are canceled. City Hotels generally experience a higher volume of cancellations compared to Resort Hotels.

## Seasonal Peaks

Both Average Daily Rate (ADR) and cancellation rates see a significant increase during the summer months (July-August), indicating a seasonal pattern for demand and risk.

# Dynamic Deposit Policies: Mitigating Risk

RECOMMENDATION

Implement flexible deposit policies that adjust based on booking risk factors. This approach can significantly reduce cancellations during high-demand periods, for bookings from high-cancellation regions, or for new guests.

- Higher deposits for peak season bookings.
- Variable deposits based on guest history or origin country.
- Non-refundable options for specific promotions.

# Enhance Communication for Long Lead-Time Bookings

RECOMMENDATION

Proactive engagement with guests who book far in advance can significantly reduce the likelihood of cancellation by reinforcing value and building anticipation.

## 1 Personalized Touchpoints

Send automated, personalized emails with local attractions, hotel amenities, and special offers.

## 2 Flexible Options

Offer options for date changes or upgrades to accommodate evolving guest needs.

## 3 Pre-Arrival Information

Provide useful information like check-in procedures, transportation guides, and local dining recommendations.

# Strengthening Loyalty Programs

RECOMMENDATION

Leverage the lower cancellation rate of repeat guests by enriching loyalty programs. This strategy encourages continued patronage and reduces revenue loss from cancellations.

## Exclusive Perks

Offer members-only rates, complimentary upgrades, or early check-in/late check-out privileges.

## Tiered Rewards

Implement a tiered system where higher loyalty tiers receive greater benefits, incentivizing repeat stays.

## Personalized Experiences

Recognize and cater to individual preferences, making each stay feel unique and valued.

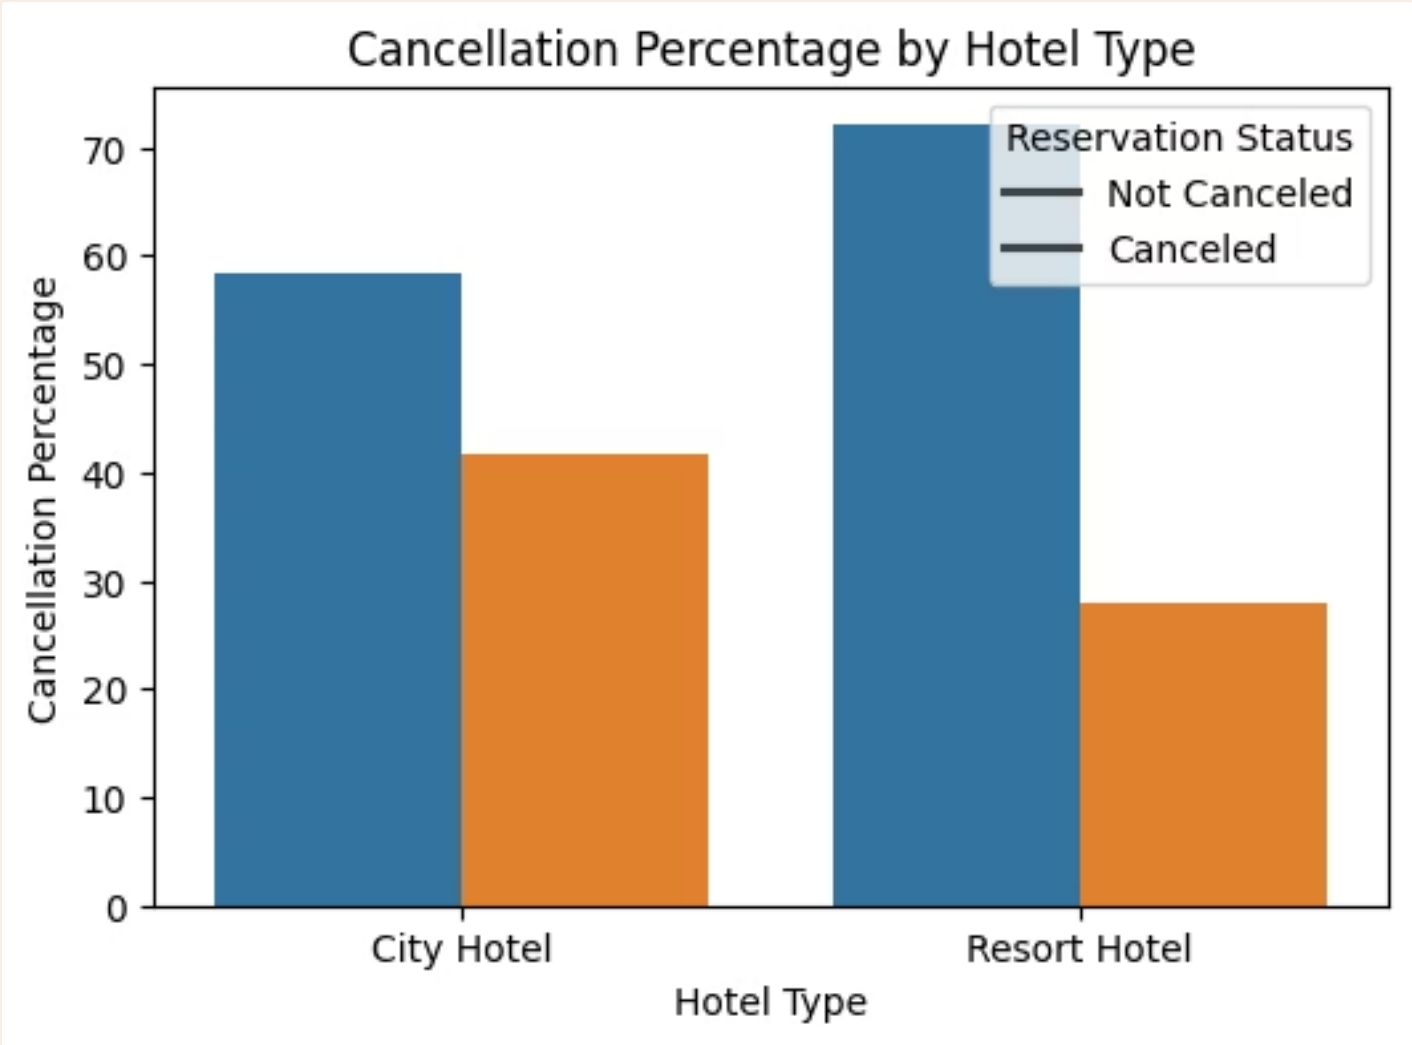
# Tailored Strategies by Hotel Type and Seasonality



RECOMMENDATION

Develop distinct marketing and pricing strategies that align with the specific characteristics of each hotel type and seasonal demand fluctuations.

## City Hotels

- Focus on business travelers during weekdays.
- Weekend packages for leisure guests.
- Dynamic pricing for events and conferences.

## Resort Hotels

- All-inclusive packages for families.
- Promote longer stays during off-peak seasons.
- Seasonal activities and experiences.
